

LONDON
MESSUMS
WILTSHIRE

"Clay is one of the most transformative materials celebrated here as part of our ceramic season online and across the galleries. "

Ceramic is an area for collecting that brings great pleasure in terms of the object itself, it can stand alone in its own right or it can actively engage with the environment in which it is placed. They are strangely collaborative things as works of art, readily conversing with other objects and the space around them, resonating with differences and adding to the language of a collection. Perhaps that is one of the reasons they hold so much enduring pleasure for us.
